
Mr. Gregory M. Linsky

Director, Procurement for Unmanned Aviation and Strike Weapons Programs Naval Air Systems Command

In December 2021, Mr. Linsky became the Director, Procurement for Unmanned Aviation and Strike Weapons Programs (PEO(U&W)), Naval Air Systems Command (NAVAIR). In this role, he is the senior procurement official responsible for the naval aviation programs assigned to PEO(U&W), executing more than 1,200 product and service contracts and obligating more than \$6B on an annual basis.

Mr. Linsky was appointed to the Senior Executive in December 2021, and has 29 years of combined Military and Federal Service.

Prior to this appointment, Mr. Linsky served as the Deputy Director for Procurement at NAVAIR. In this role, he assisted the Director in the day-to-day operations of the Procurement Group, which was responsible for approximately 1,000 personnel nationwide and \$40B annually in contract actions.

Mr. Linsky began his naval career in 1993 as a Hospital Corpsman, assigned to an EA-6B Prowler squadron in Whidbey Island, Wash., deploying in USS Saratoga (CV-60) and USS Enterprise (CVN-65). Commissioned as a Navy Supply Corps Officer in 2001, he served at sea as a Division Officer in USS Mustin (DDG-89) and Supply Department Head in USS Monterey (CG-61). Ashore, he served as a Naval Acquisition Contracting Officer (NACO) in support of V-22 Osprey production, Deputy Contracts Division Head for Naval Air Warfare Center Aircraft Division, Deputy Department Head for NAVAIR Contracts Policy, and as a Contract Specialist for the Advanced Anti-Radiation Guided Missile Program. Mr. Linsky retired from the Navy in 2015, as a Lieutenant Commander, after 22 years of active duty service.

Mr. Linsky began his civilian career in 2015, as the Procuring Contracting Officer (PCO) for the Long Range Anti-Ship Missile Program. From 2016 to 2019, he served as the PCO for various PEO(U&W) programs, including the MQ-4C Triton and Small Tactical Unmanned Aviation Systems program offices. From 2019 to 2020, he supported the Director on numerous Command and Navy initiatives, most notably the establishment of the NAVAIR Proposal Analysis Division, a cross-functional cadre charged with maximizing the use of advanced data analytics and machine learning to identify, promote, and deploy more efficient cost and price analysis tools for major weapons systems acquisition.

Mr. Linsky graduated magna cum laude from the University of West Florida with a bachelor's degree in legal studies. He also holds a master's of business administration degree from the Indiana University Kelley School of Business, with majors in both supply chain and management. Mr. Linsky is a member of the DoD Acquisition Professional Community and is Level III certified in the Contracting career field.
